Summary

A person with the ability to work independently, and great capability in learning. iOS, Node.js & Web Developer.

Energetic, careful, and with the ability to work well with others or initiate and operate independently.

My technology stack (time aligned): React, React Native, Node.js, Shell, Python, Swift, Objective-C, HTML.

Education Background

2017.02 - 2019.06, [Nanyang Technological University](#), SCSE, Master of Engineering.

2013.09 - 2017.06, [Liaoning Technical University](#), Communication Engineering, Bachelor Degree.

Skills & Expertise

These are my favourite programming languages or frameworks.

Programming Languages

Objective-C Node.js Swift Shell

Frameworks & APIs

Cocoa Ccrypt Express lldb Sprite Kit

Software & Tools

Reveal Hopper Charles

Internship

[Shanbay](#) (*Nanjing Beiwan Education & Technology LTD.*)

2016.07 - 2016.10, iOS Developer

In these three months, I completed all the tasks independently, including four big modules, such as Insurance Plan revision (By [React Native](#)) and Punch Plan revision, and several issues, such as Punch Share revision, fastlane script, Xiaomi Push, Wechat Pay, and code review.

What's more, I open-sourced a module named [BayCarouselView](#) on GitHub, and published a blog to explain how it works.

Huludao Huahui Technology LTD. (Summer credit program)

2014.07 - 2014.10, Software Developer

This is a summer credit program, and I am the leader of the team. My work included the design of the API, the design of the permissions system, the development of the iOS App, and the weekly summary.

Projects Experience

LNTU EDU Online Server (open-source, Node.js)

2016.03.11 - 2016.03.14, Founder & Developer

[Website](#)

[GitHub](#)

[Open API](#)

I am really interested in event-driven programming and callback function, so I wrote a new one in Node.js.

LNTU EDU Online Mobile Client (open-source, Objective-C, Swift)

2014.08 - now, Founder & Developer

[Website](#)

[App Store](#)

[Google Play](#)

[GitHub](#)

The Education Online APP is my personal project, I built it for skipping the identifying code and getting the score info quicker.

This project contains iOS, Android, and backstage support. iOS client has been built for over 140 times, refactored for 4 times. It is online successful.

Now we have more than 35,000 users (Only in Liaoning Technical University), up to 11,000 users actively a day, and up to 5,000,000 PV a day.

Eye4gift Card App (Objective-C)

2015.12 - 2016.01, Developer

[Website](#)

[App Store](#)

This is an outsource project, and I developed the shopping cart module of the iOS App, item detail page, shopping cart page, and the final payment page.

Digital Dormitory Management System (Objective-C)

2014.08 - 2014.09, Developer

[App Store](#)

This system has been put into use in our school, contains back-end development, iOS App, and Android App, the system has been used to check out the score of a dorm and be a feedback system.

I mainly worked for the iOS App development on this project.

Honours and Awards

- LNTU **Academic Pacesetter**, 2015.11
- LNTU **Software Design** First prize, 2014.09
- LNTU **Fix the Machine Contest** Second prize, 2013.11
- Hebi High School **Star of Art**, 2012.5
- Hebi TV **News interview <A Student Made A Movie Has Been Received Considerable Attention (2011.12.17)>**, 2011.12
